## 2 Reason for discontinuation

u-blox has decided to announce the end-of-life for the above listed products. The reason is the EOL of the memory used by the modules, and the availability of pin compatible (for easy migration) successor products with enhanced performance and quality.

## 3 Recommendation

u-blox recommends to migrate to the new improved SARA-G340-02 and SARA-G350-02 successor product. Migration is straight forward as the successor product is pin compatible with the old SARA-G340/SARA-G350 products:

- SARA-G340-02S, SARA-G350-02S and SARA-G350-02X are pin-to-pin compatible successors of the 00S, 00X and 01S versions.
- Software developed for the 00S, 01S, and 00X versions will also run with the 02S and 02X versions.
- No other actions required.
- For further details on migrating to SARA-G340-02 and SARA-G350-02 versions, please refer to the SARA-G340-02S/SARA-G350-02S Information Note [1].
