Subject: Product Obsolescence Notice

Dear Valued Customers;

The purpose of this notice is to inform you that E-Z-Hook will no longer be able to supply 66x40 stranding on our 22AWG spools.

We understand the difficulty this may cause your business and we are committed to assisting you through this change and the challenge it may present.

Our goal has and will always be to design products that last for many years. In the rare event that we have to discontinue or change a product, we make our best effort to provide a product with the same functionality without changing the product performance and quality.

Below you will find a list of products affected immediately by this change and recommended replacements.

OBSOLETE	REPLACEMENT
9504-100BRN	9514-100BRN
9504-500BRN	9514-500BRN
9504-1000BRN	9514-1000BRN

Please note that at this time Brown wire is the only color affected by this change. We still have a good supply of other colors available with this stranding. Once this stock is depleted, we will send out separate notices.

Thank you,

Raquel Lopez

Director of Operations and Engineering
