There will be **no change in form, fit and function** of the Reed Switch. Qualification report and samples are available upon request from **November 13th, 2023**.

These changes will take effect starting **February 12th, 2024**. Orders of the affected part numbers coming out of Matamoros plant will be accepted until **December 13th, 2023**. During this transition period **from February 12th to September 30th, 2024**, customers are expected to receive current and new packing products from both MA3 and PH1 plants until current product inventory in Littelfuse warehouse, and Distribution channels are depleted. Other Sensitivity/Pull-In Range from 20 to 35 AT will remain no change until further notice.

This notification is for your information and acknowledgement. If you require product specific data or samples to certify this change, please contact Littelfuse. If we do not hear from you by December 6th, 2023, we will expect that this product change notification has been accepted and no further action is required. Thank you.
