December 8, 2023

Dear Valued Customer,

As part of our ongoing efforts with transitioning to the global MLCC PN nomenclature, the thickness codes for the following list of PNs have been updated. The following table lists the historic KAVX PNs, the current global PNs (as of December 2023), and the previous global PNs. The datasheets for the global PNs have been updated to reflect these changes, and can be accessed by visiting www.kyocera-avx.com.

We appreciate your continued support throughout this transition.

Should you have any questions or concerns, please kindly contact your KAVX Account Manager

Thank you

KYOCERA AVX Components Corporation
