| <b>Title / short description</b>   | Optimization of the fit of the marking labels in the PATG 4/... carrier |
| <b>Affected article category</b>   | Marking and labeling                                                    |
| <b>Change category</b>             | FIT, Form and appearance                                                |
| <b>Change number</b>               | CBG230027-00                                                            |
| <b>Reason for PCN/PDN Revision</b> |                                                                         |

---

### Purpose/objective of the change

Contour optimization of the upper part of the PATG 4/... by adjusting the nominal dimensions of the receptacle.

### Detailed description of the change

The window for the marking labels is optimized to ensure optimum fit. The visual change can be seen in the figures. This ensures optimum fit for the marking labels from the UCT-WMT..., UC-WMT..., US-WMT..., and MM-EMT... product groups in the PATG 4/... carrier.

### Identifying characteristics

Increase to the production batch (V/C)

## Visualisation design change PATG 4/...

### Further information

Change of the upper part from the carrier for an optimum stuck of the marking material.
