Series 84 Halo Illumination Flange Color Change

To Whom It May Concern:

The Series 84 halo illumination flange will now be manufactured in black to reduce LED side-shine light bleed. There is no change in part numbers as both components are interchangeable. EAO part number 84-960.0 will remain valid. The new flange will be available from January 13, 2013.

EAO Customer Service can be reached at eusCustomerService@eao.com with any questions.

Best regards,
EAO Corporation
