

Product Change Notification – Major change

PCN #: PCN24-0013	Rev: 1.0	Issue Date: April 25, 2024																								
Purpose of notification: Firmware update for F-86 Series CFast Cards Type of notification: Major change																										
Detailed Description: Firmware update: This product change notification is to inform you about a new recommended firmware availability for the F-86 product, which uses AOR20008 (FW1) . The firmware AOR20009 (FW2) has been improved as follows: <ul style="list-style-type: none"> Improved command handling (TRIM, NCQ, COMRESET, SLEEP, DevSleep, SRST, secure erase, download microcode) Improved card boot behaviour to avoid seldom card detection problems Improved compatibility for hosts which send DMA commands if no DMA mode is selected Improved security feature set compatibility Improved host compatibility when SEEK or TRANSLATE commands are used. Improved SATA log page reporting for device sleep feature support and error reporting for NCQ commands Improved life time information for trim command counts Added slumber disable Bit to disable partial and slumber power modes if firmware feature bit 7 is set. <p>Swissbit has completed its internal testing and has qualified the new firmware to ensure full compatibility. We recommend switching to the new firmware revision as soon as possible. There is no change to form fit or function. Performance does not change and the data sheets remain unchanged.</p>																										
Quality impact: Improved																										
Reliability impact: Improved
