

DATE: May 28, 2024

Dear Valued Customer,

We would like to inform you of changes in the availability of one of the variants of the below products because you have purchased one or more of these in the past.

Please note that the affected spring terminal variants have two available types: with a Spring Terminal (black connector); and with a “push-in” style Spring Terminal (black/orange connector).

As of May 15th, NI is discontinuing the Spring Terminal (black connector) variants, but the “push-in” style Spring Terminal (orange/black) variants are still available. These are drop-in replacements that have the exact same performance and are easier to interface with the I/O connector (“push-in” style Spring Terminal; orange/black).

EOL Products	EOL Product Descriptions	Replacement Products
782616-01	NI 9220, +/-10 V, 16-BIT, 100 KS/S, 16-CH, SIMULTANEOUS AI C SERIES MODULE	785188-01
