Business Unit	Product Line Code	Type of Change	Action	Date of Issue
IFC - Industrial Field Connectivity	BF1	Product Change Notification	Notify Distributors and Field	11/25/2024

Description for Product Change Notification

UL 1863 and CSA C22.2 No. 233-17 have new requirements for printing raw cables. Since our items are certified in accordance with UL 1863 and CSA C22.2 No. 233-17, the raw cables must pass a vertical fire protection test in accordance with FT1 (UL 2556 para. 9.3 and UL 1581 para. 1060) or FT4 (UL 2556 para. 9.6 and UL 1685 para. 12 to 19). In addition, this must be visibly described on the cables. In this context, our unprinted cables are being printed. The printing can be found in the following presentation. This may result in overprinting. The change will be implemented from the end of Q4/2024. Due to stock levels, this may result in a longer changeover period. The existing UL/ CSA approvals will of course remain valid. This change includes all listed data cables. Please refer to the attached presentation for the change to the printing. The mechanical properties, such as outside diameter, conductor cross-section, bending and torsion cycles, will remain unchanged.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes

Transaction Dates

Date modification goes into effect from Germany:	12/1/2024
Expected first shipment (from Phoenix Contact) of the modified products(s):	12/1/2024

Should you have any issues with the timeline or content of this product change, please contact Phoenix Contact using the information below. Customers should acknowledge receipt of the PCN within 30 days of delivery of the PCN; provided, however, that the failure to acknowledge receipt does not affect the product change or the effective date thereof.
